Engineering analysis

The engineering analysis and the information on which it was based was prepared by a third party and has been donated to the Borough Council of Wellingborough for the purposes of informing the strategic WEAST master planning process only. It is copyright material and should not be used or relied upon by anyone other than the person for whom it was prepared. The information is included in the development brief on the understanding that no claims or liability for any loss or damages as a result of its publication in the master plan will be accepted by its authors, by those that commissioned its production by the authors or by those who agreed to permit its publication in the development brief documents. The information has been based on strategic studies and is not considered suitable to support development at specific sites within the master planning area. Those contemplating development of specific sites or otherwise seeking to use the information published cannot rely on the information included in the development brief and must carry out their own detailed investigations and engineering analysis.

Contents

1 Introduction

- 1.1 Background
- 1.2 The study context
- 1.3 The site area
- 1.4 Purpose
- 1.5 Approach
- 1.6 Structure of the report

2 Policy review

- 2.1 Overview
- 2.2 Wellingborough Local Plan
- 2.3 Wellingborough East Development Framework
- 2.4 Other local planning guidance

3 Site and context appraisal

- 3.1 Historic Context
- 3.2 Landscape character
- 3.3 Land form
- 3.4 Ground conditions
- 3.5 Buildings of architectural or historic interest
- 3.6 Transport
- 3.7 Legibility
- 3.8 Existing land use
- 3.9 Land ownership and tenure
- 3.10 Property market considerations
- 3.11 Infrastructure and services
- 3.12 SWOT summary

4 Planning and design principles

- 4.1 An efficient, comfortable and attractive transport interchange hub
- 4.2 A framework of streets and squares
- 4.3 A landscape structure of places and spaces
- 4.4 An interwoven mixture of uses
- 4.5 A diversity of housing types and tenures
- 4.6 Higher densities to support a critical mass of facilities
- 4.7 A strong sense of local identity based on distinctive design
- 4.8 Conserving energy and managing waste
- 4.9 A fully-integrated Sustainable Urban Drainage System (SUDS)

5 Proposed development process

- 5.1 Applying high standards of sustainable development
- 5.2 Comprehensive development
- 5.3 Phasing
- 5.4 Design and development process
- 5.5 Railway-related procedures
- 5.6 Management
- 5.7 Further studies
- 5.8 Outline of planning obligations

Appendix A

Resume of Planning Policy at National, Regional and County Level

Appendix B

Ecohomes Rating Prediction Checklist

List of figures

- 1.1 Study context
- 1.2 The site area
- 2.1 Local plan extract
- 3.1 Historic evolution
- 3.2 Landscape analysis
- 3.3 Land form
- 3.4 Ground conditions and Building Constraints
- 3.5 Movement network
- 3.6 Site access
- 3.7 Pedestrian and cycle network
- 3.8 Public transport network
- 3.9 Legibility
- 3.10 Land use
- 3.11 Infrastructure and services
- 4.1 Illustrative masterplan
- 4.2 Movement framework
- 4.3 Illustrative layout of Station Island
- 4.4 Street cross sections
- 4.5 Landscape structure
- 4.6 The principle of 'use transitioning'
- 4.7 Building heights
- 4.8 A mix of housing types
